NQS Schemes

Program	Participation	Code
Clinical chemistry liophilized sample, quantitative report **Analytes:** Albumin, Alkaline Phosphatase (ALP), Alpha Amylase, Alpha HBDH, Phosphorus, Total Bilirubin, Direct Bilirubin, CK, CKMB, Gamma-GT, Glucose, AST/GOT, ALT/GPT, Uric Acid, IgA, IgG, IgM, Calcium, Urea, Chloride, Cholesterol Total, HDL Cholesterol, LDL Cholesterol, Cholinesterase, Potassium, Creatinine, Lactate, LDH, Lipase, Lithium, Magnesium, Sodium, Total Protein, Amylase Pancreatic, Copper, Triglycerides, Iron, TIBC, UIBC, Zinc, Acid Phosphatase Total, Acid Phosphatase Prostatic, Bicarbonate, Ionic Calcium	Every month	NQSCC
Coagulation liophilized sample, quantitative report **Analytes:** PT(%,sec), INR, APTT, APTT ratio, Fibrinogen	Every month	NQSCO
Coagulation + D-Dimer liophilized sample, quantitative report	Every month	NQSDD
Point Of Care Coagulation liquid sample, quantitative report **Analyte:** POC INR	Upon request	NQSCO_P
Hematology whole blood sample, quantitative report **Analytes:** Hemoglobin, RBC, MCV, Hematocrit, WBC, PLT, Lymphocyte, Neutrophil, Monocyte, Eosinophil, Bazophil, MCH, MCHC, RDW	Every month	NQSHE
Urine – strip and sedimentation liquid sample, qualitative report **Analytes:** Ascorbic Acid, Bilirubin, Specific Gravity, Leukocytes, Glucose, Ketone, Microalbumin, Nitrite, Protein, pH, Urobilinogen, Blood, HCG, Urine sedimentation	Every month	NQSUR
Immunology liophilized sample, quantitative report **Analytes:** Alpha-Fetoprotein (AFP), AFP qualitative, ACTH, aldosterone, CA125, CA19-9, CA15-3, 17 Alpha Hidroxyprogesteron, CEA, CEA qualitative, C-peptide, DHEA, DHEA-S,Vitamin D, FSH, T3-Free, T4-Free, T3, T4, Gastrin, HCG, HCG qualitative, β-HCG, HGH, IgE, IgE qualitative, Insulin, Calcitonin, Cortisol, LH, Estradiol, Estriol, Progesteron, Prolactin, Testosterone, Testosterone Free, PSA Total, PSA Total qualitative, PSA Free, TSH, TSH qualitative, Digoxin, Ferritin, Ferritin qualitative, Anti-TPO, Thyroglobulin, Thyroglobulin qualitative, Antithyroglobulin, PTH, Folic Acid, Vitamin B12 Our Immunology program includes tests for: • Thyroid hormones • Reproductive hormones • Anemia markers • Tumor markers At our competitors you buy each program separately in 3-4 vials and therefore they are more expensive and let the discounts offer various offers. If a lab wants a thyroid hormoneς program, we give them the whole vial and it's like they have the rest of the programs as a gift.	Every month	NQSIM
Cardiac markers liophilized sample, quantitative report	Every month	NQSCM

NQS Schemes 2023

Analytes: CK total, CK MB activity, CK MB mass, Troponin I, Troponin T, BNP, Pro BNP, HS CRP, Homocysteine, Myoglobin		
Specific proteins liophilized sample, quantitative report **Analytes:** ASO, ASO qualitative, CRP, CRP qualitative, RF, RF qualitative, IgA, IgG, IgM, ά1-antitrypsin, ά1-glycoprotein, ά2-macroglobulin, Complement C3, Complement C4, Ceruloplasmin, Ferritin, Haptoglobin, Transferrin	Every month	NQSPS
Point of Care CRP liquid sample, quantitative report **Analyte:** CRP quantitative	Upon request	NQSPS_P
Electrophoresis liophilized sample, quantitative report **Analytes:** Total Protein, Albumin, Alpha 1-globulin, Alpha 2-globulin, Beta-globulin, Gamma-globulin	Every month	NQSEP
Electrophoresis 6 fraction liquid sample, quantitative report **Analytes:** Total Protein, Albumin, Alpha 1-globulin, Alpha 2-globulin, Beta 1-globulin, Beta 2-globulin, Gamma-globulin	Every month	NQSEP6
HBA1C liophilized sample, quantitative report	Every month	NQSHG
Blood group liquid sample, qualitative report **Analytes:** Blood Group (A, B, 0), Rh, Rh Phenotype c / C / e / E / Cw, Kell Antigen, DAT, Anti-A, Anti-B, Anti-D1, Anti D2, Ctrl, A and B Cells, Irregular Antibodies	March, April, June, July, September, October, November, December	NQSGS
ESR liquid sample, quantitative report	Every month	NQSVS
Blood smear – image images + case study	Every month	NQSFS
Reticulocyte count liquid sample, quantitative report	Every month	NQSRE
Urine chemistry liophilized sample, quantitative report **Analytes:** Alpha Amylase, Phosphorus, Glucose, Uric Acid, Calcium, Potassium, Chloride, Urea, Creatinine, Magnesium, Microalbumin, Sodium, Osmolality, Total Protein, Copper, Cortisol	Every month	NQSCU
Serology Plus liophilized sample, qualitative report **Analytes:** HAV IgG, HAV IgM, HBsAg, HCV, HIV, Syphilis (VDRL, RPR, TPHA), HbsAc, Helicobacter Pylori Antibody, Chlamydia IgM and IgG, Cytomegalovirus IgM and IgG, EBV IgM and IgG, Herpes Virus I IgG, Herpes Virus II IgG, Rubella IgG and Rubella IgM, Toxoplasma IgG and IgM, HBcAb, HBcAg, HBeAg, HBeAb Our Serology Plus program is unique in the world with all the tests together. In the competition hepatitis, HIV, rubella, toxoplasma, chlamydia etc are in separate vials/programs and consequently the cost increases.	Every month	NQSSE_P

NQS Schemes 2023

Coproparasitology – image images + case study	Every month	NQSPA
Fecal Occult Blood fecal matrix, qualitative report	Every month	NQSHO
Helicobacter pylori antigen	Every month	NQSHP
fecal matrix, qualitative report		
General Bacteriology liophilized sample identification and antibiotic susceptibility test, qualitative report	Every month	NQSBG
Bacteriology – Uroculture liophilized sample identification and antibiotic susceptibility test, qualitative report	Every month	NQSBU
Bacteriology – Coproculture liophilized sample identification and antibiotic susceptibility test, qualitative report	Every month	NQSBC
Bacteriology – Vaginal swab liophilized sample identification and antibiotic susceptibility test, qualitative report	Every month	NQSBS
Bacteriology – Throat swab liophilized sample identification and antibiotic susceptibility test, qualitative report	Every month	NQSBT
Bacteriology – Hemoculture liophilized sample identification and antibiotic susceptibility test, qualitative report	Every month	NQSHM
Bacteriology – Urethral swab liophilized sample identification and antibiotic susceptibility test, qualitative report	Every month	NQSSU
Bacteriology – Nasal swab liophilized sample identification and antibiotic susceptibility test, qualitative report	Every month	NQSSN
Bacteriology – Conjunctival swab liophilized sample identification and antibiotic susceptibility test, qualitative report	Every month	NQSSC
Bacteriology – Purulent swab liophilized sample identification and antibiotic susceptibility test, qualitative report	Every month	NQSSP
Bacteriology – Ear swab liophilized sample identification and antibiotic susceptibility test, qualitative report	Every month	NQSSO
General Micology liophilized sample identification and antibiotic susceptibility test, qualitative report	Every month	NQSMC
Micology – Uroculture liophilized sample identification and antibiotic susceptibility test, qualitative report	Every month	NQSMU

NQS Schemes 2023

Micology – Coproculture liophilized sample identification and antibiotic susceptibility test, qualitative report	Every month	NQSMP
Micology – Vaginal swab liophilized sample identification and antibiotic susceptibility test, qualitative report	Every month	NQSMV
Micology – Throat swab	Every month	NQSMT

NQS Schemes 2023

liophilized sample identification and antibiotic susceptibility test, qualitative report		
Micology – Urethral swab liophilized sample identification and antibiotic susceptibility test, qualitative report	Every month	NQSMR
Micology – Nasal swab liophilized sample identification and antibiotic susceptibility test, qualitative report	Every month	NQSMN
Micology – Conjunctival swab liophilized sample identification and antibiotic susceptibility test, qualitative report	Every month	NQSMA
Micology – Purulent swab liophilized sample identification and antibiotic susceptibility test, qualitative report	Every month	NQSML
Micology – Ear swab liophilized sample identification and antibiotic susceptibility test, qualitative report	Every month	NQSMO
Influenza A+B liophilized sample, qualitative report **Analytes:** Influenza A, Influenza B	Every month	NQSIF
Toxicology liquid sample, quantitative and/or qualitative report **Analytes:** THC, THC qualitative, Benzoylecgonine, Benzoylecgonine qualitative, PCP, PCP qualitative, MOP, MOP qualitative, AMP, AMP qualitative, MET, MET qualitative, Secobarbital, Secobarbital qualitative, Oxazepam, Oxazepam qualitative, MTD, MTD qualitative, Methaqualone, Methaqualone qualitative, MDMA, MDMA qualitative, OXY, OXY qualitative, BUP, BUP qualitative, Nortiptyline, Nortiptyline qualitative	Every month	NQSDA
Allergy – Inhalation	Upon request	NQSAI
Allergy – Food	Upon request	NQSAF
Clostridium difficile ready to use sample, qualitative report **Analytes:** C. difficile Toxin A, C. difficile Toxin B, C. difficile GDH	Every month	NQSCD
Preanalytical phase – survey	March, June, September, November	NQSFP
